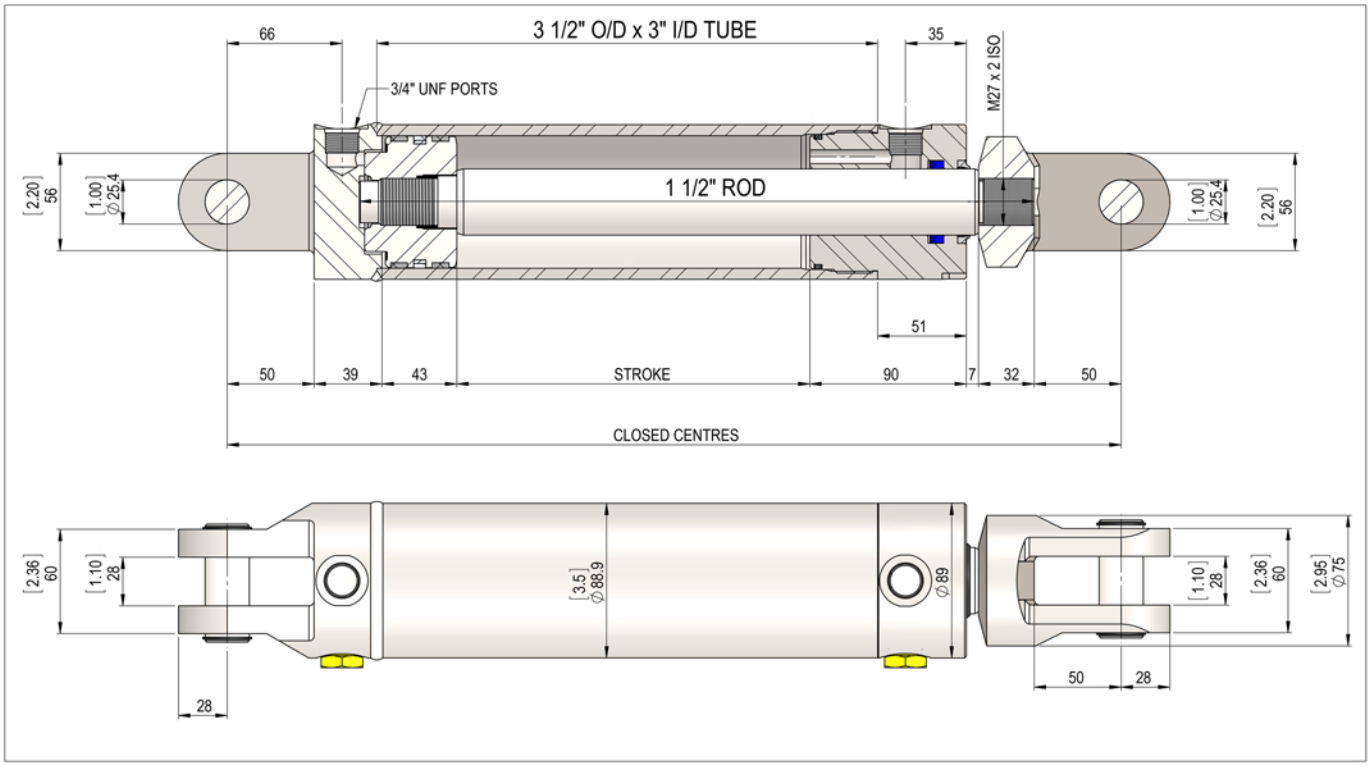
Heavy Duty Agricultural Cylinder Double Acting

ARI3015 Series 3” Bore 1.5” Rod



Features

- Steel glands nitride hardened for durability
- 4 port options for ease of installation
- High performance seals
- Patented 1 piece piston with internal locking system

Technical Data

- Max working pressure 250bar (3000psi)
- Temperature range -40˚F - +230˚F
- Max speed 1m/s or 3ft/sec
- Suitable for hydraulic mineral oil
